

## PEDRO SORRENTINO - JAVASCRIPT DEVELOPER

As a seasoned self-taught JavaScript developer, I've successfully delivered over 30 projects in the last 5 years, including both client work and personal ventures that I've built and sold. I specialize in modern frontend development with Next.js and Astro, consistently crafting high-performance applications with a focus on user experience and Core Web Vitals. My experience as a freelancer has honed my ability to adapt quickly to new technologies and deliver clean, maintainable solutions. Now seeking to bring my expertise to larger teams where I can collaborate on challenging projects while continuing to grow as a developer.

### MOST RECENT WORK EXPERIENCE

#### Freelance Web Developer

December 2014 - Present | Las Palmas, Spain

##### Key Contributions

- Creation of websites using React, Next.js, and Astro, focusing on scalable solutions.
- Optimize performance of each web application, achieving profitability in a short time.

#### Back End Developer at AD Computers

January 2011 - December 2012 | Madrid, Spain | Remote

##### Key Contributions

- Collaborated on development projects, creating RESTful APIs with Node.js and MySQL.
- Ensured scalable, secure, and efficient services, supporting integration and optimization with front-end teams.

#### WordPress Developer at Publi Media 7

June 2004 - October 2012 | Las Palmas, Spain

##### Key Contributions

- Created custom WordPress websites tailored to the needs and preferences of each client.
- Developed custom themes and plugins, ensuring unique and functional solutions.
